

# Easy Home Storage for your Apples & Pears

- 1** Recycle the plastic bags your newspaper comes in, or any other plastic bags.
- 2** Be sure to run your finger completely through the bag in 3-5 places for air circulation!

Fill bag with apples and close with twist tie or rubber band. Place in refrigerator or other cool place like a garage or north side of house (but hang up the bags if raccoons or other critters are a problem in your area).

- 3** Enjoy!
