

BLUEBERRIES

VARIETIES FOR 2017

AURORA	Medium berries ripen just slightly after Elliot. Nice sweet flavor. Easy to grow, with a slightly spreading habit.
BERKELEY	Vigorous, productive bush with spreading habit yields large, firm berries excellent for dessert and freezing.
BLUECROP	The standard of excellence with large fruit & good flavor. Great for fresh eating, and sparse foliage makes for easy picking. Yields 12-20lbs/bush, ripening mid-July.
BLUEGOLD	Med. sized shrub at 4-5' with med. sized, high quality berries that keep up to 5 weeks in storage. One of the latest to ripen, typically yields 12 lbs.
BLUEJAY	Large shrub at 5-7' with open habit and superior vigor produces slightly tart, med. to large sized berries perfect for baking and fresh eating. Yields 10-20 lbs.
BLUERAY	Large fruit with very sweet and slightly tart flavor, excellent quality. Vigorous, multicaned bush with brilliant red fall color. Self-fruitful. Ripens early to mid-season.
BOUNTIFUL BLUE	Prolific producer of large, super-sweet berries. Semi-evergreen with compact, semi-dwarf habit and attractive blue foliage. Midseason.
BRUNSWICK	A low bush variety forming a dense mat 6-8" tall and 4' wide. Pea sized fruit with sweet, wild flavor. Good fall color. Zones 3-7.
BURGUNDY	Vaccinium specialty. A standout selection from Maine with distinctive gray-green foliage, burgundy new growth, and light blue berries in summer. Growth is compact, about 3 ft. wide by 1 ft. tall. Deep burgundy fall color.
CHANDLER	Mid to late season. Giant fruits the size of cherries! Delicious flavor, long ripening season over six weeks. Vigorous shrub to 5-6 feet tall. Zones 4-7.
CHIPPEWA	Mid-season. Medium to large berry with excellent, sweet flavor. Compact upright growth to 3-4'. Foliage turns brilliant red in autumn.
DARROW	Very large fruits with excellent flavor. Vigorous, upright bush growing 5-6' tall. Good variety for the P.N.W. Yields 8-15 lbs., ripens early August.
DRAPER	Med-sized, sweet berries with thick skins that have a nice, crisp texture. Highly productive. Vigorous, upright shrub grows 5-6'.
DUKE	Medium berries with mild flavor and good quality. Very productive, multi-caned bush growing 4-6' tall. Good for fresh eating and processing. Ripens early.
EARLIBLUE	One of the first to ripen. Nice, medium size, sweet berries, 8-15 lbs. per bush. Upright growth habit reaching 4-6'.
ELLIOT	Very late season. Medium, firm blue fruit with mild aromatic flavor. Upright growth to 4-6', with deep red and wine colored foliage in the fall.
EMERALD	Vigorous, upright shrub to 5-6' produces large, firm berries with excellent flavor. Mid-season.
HARDIBLUE	Exceptionally sweet, medium sized berry. Nicely adapted to heavier clay soils. Produces a heavy crop in summer.
HERBERT	Very large, dark blue fruit with classic sweet-tart flavor. Semi-dwarf plants are easy to harvest, great for home gardeners. Late ripening.
IVANHOE	Mid-season. Very large fruit, heavy bearer. Firm, crisp fruit with a delightful, sweet-tart flavor. High dessert quality and resists cracking. Vigorous, tall, upright bush.
JERSEY	Small to medium, juicy berries. Mild flavor. Vigorous, semi-upright plant to 5-7' with red wood and yellow fall color. Ripens late August.
JEWEL	Large, firm fruit ripens early. Great producer!

LEGACY	Medium-large, light-blue fruit with robust flavor. Leaves are partially evergreen, with light fall hues. Plant is upright, reaching 6' at maturity. Late season.
LIBERTY	Attractive fruit with outstanding firmness. Fast growing and upright. Reaches 4-5'.
MISTY	Large, firm fruit with excellent flavor on a tall, narrow shrub. Early ripening.
NATIVE BLUE	Compact, evergreen dwarf to 2', ideal for container or hedge.
NORTH-BLUE	Huge, firm, dark blue fruit with high quality, wild blueberry flavor. Yields 3-7 lbs. Handsome, dwarf shrub to 2' with glossy green leaves and deep red fall color.
NORTH-COUNTRY	Medium sized fruit with sweet wild flavor. Grows 18-24" tall and 30-40" wide. Sky blue flowers. Yields 2-7 lbs. Ripens mid-July.
NORTHSKY	Small to medium fruit with excellent wild flavor. Low spreading plant 10-18" tall by 24-36" wide. Yields 1-2lbs. Very hardy, with red fall color. Ripens mid-July.
O'NEAL	Best flavor of the Southern Highbush varieties with large, dark blue fruit from summer to early fall. Evergreen foliage in mild winters, turns brilliant red before falling in cold climates.
PATRIOT	Large berries with superior flavor. Upright bush to 4-6' tall with red wood. Yields 10-20 lbs, usually picked twice a season. Only variety resistant to <i>Phytophthora</i> . Tolerates wet, clay soils. Ripens early July.
PEACH SORBET	Compact dwarf offers year-round interest AND delicious fruit. Winner of the prestigious 2012 New Varieties Showcase at the Farwest Flower and Garden Show.
PERPETUA	New Variety! The first reliably double-cropping variety that produces fruit mid-summer and again in fall! Small fruit is mild and sweet, on 4-5' upright shrubs.
POLARIS	Early season. Medium, firm sweet fruit. 3-4' compact upright growth. Recommended as an early ripening companion to Chippewa or Northblue.
REKA	Early season. Newer variety! Excellent for the PNW, with exceptional flavor and vigorous upright growth to 4-6ft.
SPARTAN	Large, firm fruit with excellent flavor. Superb fresh or in pies. Vigorous, upright bush with red wood. Very site specific preferring light, well drained soil with pH around 4.5. Ripens early.
SUNSHINE BLUE	Medium sized, tangy fruit. Evergreen, compact shrub growing 3' tall. Self fruitful. Yields 5-10lbs. Excellent for patio planters and specimen plants. Ripens in mid-July.
TOP HAT	Medium to large fruit with good flavor. Very small bush to 16-24" tall and 12-24" wide. Crimson fall color. Self fruitful. Perfect for containers.
TORO	Very large fruit with excellent, firm quality. Tolerant of fluctuating temperatures. Hot pink flowers mature to white. Excellent ornamental growing 4-6' tall. Ripens mid season.
