

Recipe Card for the  
Container Design of the Month  
Designed by Jenn Braun at Portland Nursery

June

Design of the Month

### Cool Breeze

1. *Elymus magellanicus*
2. 'Blackie' Sweet Potato Vine
3. *Oreganum 'Kent Beauty'*
4. *Supertunia 'Indigo Charm'*
5. *Calibrachoa 'Superbells Blue'*
6. 'Sweet Caroline' Sweet Potato Vine
7. *Acaena Purpurea*
8. *Calibrachoa 'Celebration Indigo'*

PORTLAND  
NURSERY

#### Steps:

1. Fill your container 2/3 of the way with all-purpose Potting Soil.
2. Mix some fertilizer into the soil in the container.

We have always had exceptional results with *E.B. Stone Sure Start* and *Osmocote*.

3. Moistening the soil so that it is damp is an important step if your potting soil is old or on the dry side.

Most fresh bags of soil should take up water evenly when you water the plants in.

4. Plant your container.

It helps to gently loosen the root of each plant to enhance root development.

5. Fill the nooks and crannies with moist potting soil.
6. Water your newly planted container thoroughly and enjoy!

#### Substitutions:

Sometimes you cannot find the exact cultivated variety we have listed above. Luckily there are substitutions that will offer a similar or even preferred look. There are a variety of trailing accents that could be used to create a different color scheme.

#### Care and Maintenance:

The plants in this container will thrive with full sun and will bloom from May to frost (October or November) with regular fertilizing every 2-3 weeks. Water when slightly dry, being careful not to over water. The 'Kent Beauty' Oregano and the Acaena will be back next year for a new and different look!
