

Recipe Card for the
Container Design of the Month
Designed by David Green at Portland Nursery

June

Design of the Month

Postmodern Portland

1. *Astelia nervosa* 'Westland'
2. *Helichrysum tianshanicum*
3. Sweet Potato Vine 'Sweet Caroline Bronze'
4. *Echeveria* 'Rosea'

PORTLAND
NURSERY

Steps:

1. Fill your container 2/3 of the way with all-purpose Potting Soil such as E.B. Stone Edna's Best.
2. Mix some fertilizer into the soil in the container. We have always had exceptional results with *E.B. Stone Sure Start* or *Osmocote*.
3. Moistening the soil so it's damp is an important step if your potting soil is old or on the dry side. Most fresh bags of soil should take up water evenly when you water the plants.
4. Plant your container. It helps to gently loosen the roots of each plant to enhance root development.
5. Fill the nooks and crannies with moist potting soil.
6. Water your newly planted container thoroughly and enjoy!

Substitutions:

Sometimes you cannot find the exact cultivated variety we have listed above. Luckily there are substitutions that will offer a similar or even preferred look.

Care and Maintenance:

The plants in this container will thrive in full sun looking good from May to frost. Water sparingly when the top two inches of soil are dry. Top dress and gently scratch into the surface some granular all-purpose fertilizer 1 month after planting.
