

# Recipe Card for the Container Design of the Month

Designed by Stephanie Mack of Portland Nursery

## November

Design of the Month

### Fall Fantasy

1. *Chamaecyparis* 'Nana Lutea'
2. *Corokia cotoneaster*
3. *Abies pinsapo* 'Horstmann'
4. *Nandina* 'Obsession'
5. Blood Veined Sorrel
6. *Viola* 'Sorbet Icy Blue'

### Steps:

1. Fill your container 2/3 of the way with all-purpose Potting Soil such as E.B. Stone Edna's Best.
2. Mix some fertilizer into the soil in the container. We have always had exceptional results with *E.B. Stone Sure Start*.
3. Moistening the soil so that it is damp is an important step if your potting soil is old or on the dry side. Most fresh bags of soil should take up water evenly when you water the plants.
4. Plant your container. It helps to gently loosen the roots of each plant to enhance root development.
5. Fill the nooks and crannies with moist potting soil.
6. Water your newly planted container thoroughly and enjoy!

### Substitutions:

Sometimes you cannot find the exact cultivated variety we have listed above. Luckily there are substitutions that will offer a similar or even preferred look.

### Care and Maintenance:

The plants in this container will thrive in full sun (a minimum of 6 hours). This combination will give color and textural interest all year long. The viola will fade in summer heat and then can be replaced with summer annuals. Water thoroughly when the top inch of soil is dry. The evergreen shrubs will get overcrowded in nine months to a year. At this point separate the plants and put in the garden or new containers.
