

CURRANTS

CURRANT VARIETIES COME IN SHADES OF RED, BLACK, AND WHITE.

Red currants are high in pectin, making them ideal for jams and jellies.

Black currants have five times the Vitamin C of oranges and make wonderful liqueurs.

White currants are typically sweeter and less acidic than red currants and are best eaten fresh.

VARIETIES for 2018

| | |
|-----------------------------------|---|
| BLACKDOWN Black | Upright, disease resistant shrub produces large, black, musky fruit ideal for jelly and juice. Ripens in July. |
| CHERRY Red | Large, dark red, and very juicy, firm fruit with pleasant, mildly acidic flavor. Great for jam, jelly, sauce and fresh eating. Heavy yields in early September. |
| CONSORT Black | Large berries high in vitamin C with unique, musky flavor great for jams, preserves, juice, and drying. Easy care, disease resistant variety. |
| CRANDALL Black | Highly ornamental shrub with delightfully fragrant yellow flowers in spring, followed by sweet-tart berries in summer. Very high vitamin C content! |
| GLOIRE des SABLONS Pink | Unique, pink fruit on a handsome, disease resistant shrub. Flavor characteristics similar to those of white currants. Ripens in late July. |
| JOSTABERRY Black | Cross of black currant and gooseberry produces large clusters of berries with mild currant flavor. Heavy yields on thornless, vigorous plants. Disease resistant. |
| PRIMUS Red | One of the sweetest! Good for cooking, wine and juice. Very high Vitamin C content. Ripens late. Grows to 5'. |
| RED JADE Red | Vigorous, disease resistant variety produces abundant clusters of delicious, bright red fruit high in antioxidants. |
| RED LAKE Red | Large, dark red berries are perfect for jelly, preserves, and baking. Vigorous, upright plants make an ideal windbreak and bird forage. |
| ROVADA Red | Delicious red berries in abundant, long clusters in late July. Vigorous, disease resistant variety blooms late, escaping late frosts. Good multipurpose variety. |
| WHITE IMPERIAL White | Handsome, white, translucent fruit in loose clusters. Reputed to have the richest, sweetest flavor of all currants. Ripens mid-July. |
| WILDER RED Red | Upright, extremely hardy shrub produces extra large, very flavorful, bright red fruits over an extended period through July. One of the best for jelly. |
