

Planting Plan Questionnaire

Design Office is at 9000 SE Division St. Portland, OR 97266

Plans focus on plant selection & placement and do not include design of hardscapes such as patios, paths, etc. Please have those constructed before beginning the planting design process.

How to Get Started:

- 1) Complete this questionnaire with information pertinent to your project.
- 2) Create a base map: Measure & sketch your site, take and **print photos**. Details on 2nd page.
- 3) Call 503-788-9000 ext. 201 to make a consultation appointment with our designer.

DESIGN NEEDS

Photographing Your Site

- Firmly plant your feet & rotate while taking pictures. Print & tape photos to create a panorama. Do this to show all angles of the area.
- Take photos of views to block, focal points, views you'll see the most from inside & outside, and close-up of any plants you need identified. Label your photos.
- Print your photos in color. No printer? Upload & print photos through an online source.

Measuring Your Site

- Sketch out yard, *or*, draw out your yard on graph paper so that 1 square = 1'. Indicate north. Write in the measurements in feet. The more measurements the better!
- Measure garden beds, existing structures, containers to plant, plants to keep, utility boxes & paths. Show window/door/hose bib placement. Note window sill height from ground.
- Measure areas where privacy screening is desired and gauge height & width needed.
- Mark areas that are particularly soggy, dry, sunny, shady, or have poor soil conditions. Indicate views to keep and those to block.

PORTLAND
NURSERY

A Passion For Plants

Design Office:
