FILBERT POLLINATION

Filberts have separate male and female flowers that bloom at different times. This and genetic incompatibilities mean you have to pick varieties carefully to make sure compatible pollen will be available in order to get nuts.

☑ is a recommended pollen provider, ☒ should work.

The varieties in bold are expected in 2026.

	Yamhill	Gamma	**Wepster**	**York**	Felix	**Jefferson**	**McDonald**	Eta	**Polly O**	Theta
Wepster	☑	☒		☑	☑	☑	☑		☑	
York	☑	☑	☑			☑	☒			
Jefferson				☒	☑			☑	☒	☑
McDonald	☑	☒	☑	☑		☒			☑	
Polly O	☑		☑	☑	☒	☒	☑	☒		☒
